

AFFORDABLE ENERGY.

JOBS.

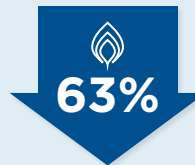

MANUFACTURING.

SAVING AMERICANS MONEY

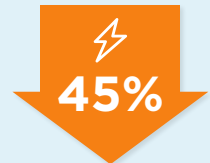

Households that use natural gas save, on average, **\$900 per year**

Increased U.S. production has reduced the price of natural gas by

leading to a

DROP
in electricity prices

That's money back in the pockets of American families

ENERGIZING THE NATION

Natural gas serves:

Nearly **69 MILLION** homes

5.5 MILLION businesses including hotels, restaurants, schools and hospitals

185,400 factories

POWERING MANUFACTURING

In 2018, an estimated **3.4 MILLION JOBS** were connected to the direct use of natural gas, including in the manufacturing sector

These jobs added

to U.S. GDP

They accounted for **\$152 BILLION** in personal income

Since 2010, U.S. shale gas has spurred **over \$200 billion** in new American manufacturing investment
