

Dan Byers

Vice President, Climate and Technology

Dan Byers is vice president of climate and technology at the U.S. Chamber of Commerce's Global Energy Institute. With a focus on domestic and international climate policy, as well as broader environmental and regulatory issues, Byers develops and implements strategies in support of the Chamber's broader education and advocacy efforts. Byers brings over two decades of public policy experience to his work assessing the impact of existing and emerging federal laws and regulations on the U.S. energy industry.

Before joining the Chamber, Byers was staff director of the Energy and Environment Subcommittee for the House of Representatives Committee on Science, Space, and Technology. Prior to that, Byers served as deputy to the associate director for technology at the White House Office of Science and Technology Policy (OSTP), where he oversaw policy development and coordination associated with a broad suite of technology issues. From 2007 to 2009, he also worked for the White House National Economic Council, leading the development and coordination of telecommunications policy for the Bush administration.

Byers holds an M.S. in soil science from North Carolina State University and a B.S. in crop and soil environmental sciences from Virginia Tech. He lives in Fairfax, Virginia, with his wife and two sons.

The mission of the U.S. Chamber of Commerce's Global Energy Institute is to unify policymakers, regulators, business leaders, and the American public behind a common sense energy strategy to help keep America secure, prosperous, and clean. Through policy development, education, and advocacy, the Institute is building support for meaningful action at the local, state, national, and international levels.

The U.S. Chamber of Commerce is the world's largest business organization representing companies of all sizes across every sector of the economy. Our members range from the small businesses and local chambers of commerce that line the Main Streets of America to leading industry associations and large corporations.

They all share one thing: They count on the U.S. Chamber to be their voice in Washington, across the country, and around the world. For more than 100 years, we have advocated for pro-business policies that help businesses create jobs and grow our economy.
