

Session 2:

**Facilitative Dialogue and Global Stocktakes:  
Perspectives on Non-State Actor Input and Engagement**

---

Dr. Brian P. Flannery  
Major Economies Business Forum

UN Climate Conference  
Bonn, Germany, November 12, 2017

# Assessments: National and Collective Progress

---

## Within the formal Paris Agreement:

- **Transparency Framework** to enhance clarity, transparency and understanding of national actions and support
- **Facilitative Dialogue** to assess collective progress, inform preparation of future NDCs

Based on official national reports, formal reviews and procedures, and agreed sources, e.g. IPCC, UNEP

Timing? Scope? Impact?

**Official**

## Broader Public Transparency Regime:

- Is it working?
- Is it fair?
- Are nations preparing to do more?

Are nations on track to achieve pledges, Paris Agreement to achieve long-term objectives?  
Domestic impacts, efficiency and effectiveness of policies  
Comparability of effort among nations  
Outreach, building credibility, trust cooperation

Contributions from academia, business, think tanks ... that will inform national discussions and decisions

Timely, Rambunctious, Revealing/Pointed

**Non-state actors**

# Benefits of Engagement and Input

---

- Business and non-state actors will play a crucial role in the informal public transparency regime
  - Analyses and dialogue will occur in complementary processes outside the formal procedures of the Paris Agreement
    - Information
    - Insights to enhance the formal process, e.g, accompanying information, metrics, financial flows
  - BizMEF, in partnership with others, will continue to develop information, and organize forums for outreach and discussions
- BizMEF will continue to invite experts from governments, IPCC and UNFCCC and others to contribute to and participate in our events
  - We hope to build recognized ways directly to inform the emerging transparency framework and assessment of collective progress, please invite us

# Thank You
